

Biobased Comfort Green Piping Bags

The hygienic and responsible Piping Bag with soft touch and non-slip feel

In a time of increasing greater focus on a 'greener' earth, One Way is also taking their responsibility to help to achieve a sustainable and durable world. The new Biobased Comfort Green Piping Bag has the same unique characteristics as the Comfort Piping Bags, but can be distinguished from the other Piping Bags because it is produced from 80% innovative plastic material that is manufactured from cane sugar.

Contrary to distillates from petroleum, this material has no ecological footprint. Entrepreneurs from the food sector that commit themselves to sustainability, now have found a sound alternative with Biobased Comfort Green. Because of the use of sugar cane the CO2 emission will be significantly reduced but without any compromises on the quality. Besides that, Biobased Comfort Green is 100% recyclable. That is a unique combination.

Art. number	Article	Colour	Size	Bags per roll	Carton
3202	Biobased Comfort Green	Green	46x26 cm-M 18 inch	100	10 rolls
3203	Biobased Comfort Green	Green	53x28 cm-L 21 inch	100	10 rolls
3204	Biobased Comfort Green	Green	59x28 cm-XL 24 inch	100	10 rolls
