

# Comfort Red Hot Piping Bags

*The hygienic Piping Bag for hot and thick fillings with soft touch and non-slip feel*

With its special 'soft touch' grip, Comfort Red Hot represents the top-of-the-line segment in piping bags. Comfort Red Hot uses a unique, patented production process. One Way's Comfort Red Hot is specially suited for processing hot and thick fillings. The unique characteristics of the extremely flexible firm-grip multi-layer film ensure that the professional can continue to achieve clean, precise results even after hours of repetitive actions. The Comfort Red Hot works just as well as the cotton piping bag and can also be easily changed over and filled up. The master knows that the smallest mistake can cause irreparable damage. Thanks to its distinctive colour the Comfort Red Hot stands out amongst One Way's other piping bags. That is why we offer Comfort Red Hot- efficient and effective for every professional.

The undisputed Number One in piping bags. The Comfort Red Hot piping bag guarantees efficiency in the kitchen and optimum food safety. The disposable piping bags always come straight off the roll, or clean from the box, fit snugly in the hand, and are also very easy to use. Safety is extremely precious in all professional (large) kitchens or bakeries.
